EDUCATION

Institute of Management Sciences - Peshawar
BCS

October 2022 – Present

Peshawar, Pakistan

Islamia College Peshawar

FSC - Pre Engineering

September 2020 – May 2022

Peshawar, Pakistan

COURSEWORK / SKILLS

- Deep Learning
- Machine Learning
- Embedded Systems
- Database Management System (DBMS)
- Artificial Intelligence
- OOPS Concept
- Data Structures & Algorithms
- Operating System

PROJECTS

Chat Application in Java | Java, Java Swing and AWT, Sockets, Data Streams

November 2022

- Developed a real-time chat application enabling users to send messages and share files seamlessly. Collaborated with Abdullah Khan to design and implement the project. Utilized Java, Java Swing, AWT, and data streams to create an intuitive user interface and ensure smooth functionality..

Raspberry Pi Firewall and DNS Setup | Raspberry Pi, Pi-hole, Linux

June 2024

- Configured a firewall and DNS server using Pi-hole on a Raspberry Pi, enhancing network security and ad-blocking capabilities. Optimized the system to efficiently handle DNS queries and restrict unwanted traffic..

Experience

Machine Learning and Recommender Systems

June 2024 – August 2024

- Developed and trained machine learning models with a focus on feature engineering to enhance predictive performance. Built and optimized recommender systems and neural networks for various applications. Leveraged TensorFlow for model training and deployment, ensuring scalability and efficiency.

TECHNICAL SKILLS

Languages: Python, Java, C++, SQL, NoSQL, Assembly

Developer Tools: VS Code, Jupyter Notebook, PyCharm, Matlab, Cisco Packet Tracer, GNS3

Technologies/Frameworks: Linux, GitHub, NumPy, Git, Matplotlib, PyTorch, TensorFlow

CERTIFICATIONS

- Introduction to Programming with Python - edX
- Machine Learning Specialization - Coursera
